CREATIVE CREW / SERVICES AND COLLABORATION

Your craft
Your approach
Your next project

Baddies Crew is a space for photography, editing and production professionals. The demo lets you introduce your services and explore collaboration with a creator, from the initial brief to reviewing a delivery.

PRODUCT DEMO

An invitation to explore and share your perspective.

Publicly accessible demo.
Illustrative profiles and activity.

THE EXPERIENCE

What you can explore

1

Your own professional profile

Present your specialty, services and availability through an independent account. The professional directory keeps a clear focus on creative work.

2

A brief with context

Explore requests and briefs with their objectives and status. Professional acceptance and creator review remain separate steps.

3

A delivery ready for review

Explore the collaboration workspace, versions, comments and project tasks. Demo examples do not represent contracts or awarded work.

Your first visit

1. Open the professional workspace and review the service introduction.
2. Explore a brief and its acceptance process.
3. See how a version is delivered and reviewed.

Explore Creative Crew

The first conversation is about your specialty and how you work. Rates, contracts, payments and real availability will be agreed during the operational phase.
